Painting in the Vineyard

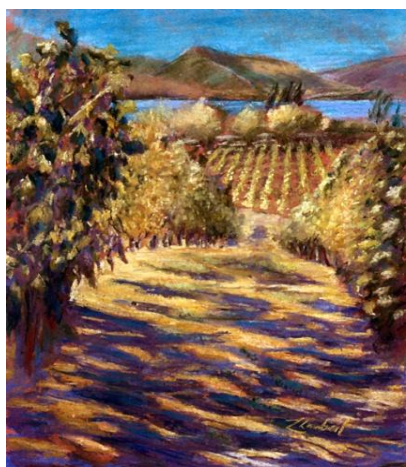

"Dinner for Two" By: Louise Lambert at: www.winecountrystudios.ca

Painting made easy with the inspiring Vineyards of the Okanagan. See why painting outdoors is so motivational and popular. You will learn how to select your scene, distilling the elements of the landscape and not worrying so much about the outcome. The trick is to relax and just enjoy it.

You will have the opportunity to observe a demonstration in soft pastels and then create your own. With time permitting you will be able to paint two studies, one with the morning light and another in the afternoon.

Louise Lambert is a professional artist and is approachable, eager to share her knowledge, patient and encouraging.
